Save for a Backpack

Developing: equal additions and subtraction

Alex wants a backpack costing \$24 total. Alex has \$8 saved and adds \$4 at the end of each week. No money is spent from these savings.

Goal	\$24
Saved now	\$8
Each week	Add \$4
Plan	Keep saving until the total reaches \$24.

Read the information. Write, say, point to, or dictate your answers. A calculator may be used.

1. How much more does Alex need?

2. How much is saved after one week?

3. How much is saved after two weeks?

4. After how many weeks will Alex reach \$24?

Save for a Backpack

Developing: equal additions and subtraction

Alex wants a backpack costing \$24 total. Alex has \$8 saved and adds \$4 at the end of each week. No money is spent from these savings.

Goal	\$24
Saved now	\$8
Each week	Add \$4
Plan	Keep saving until the total reaches \$24.

Sample answers below. Accept equivalent wording and supported communication.

1. How much more does Alex need?

\$16 ($\$24 - \8).

2. How much is saved after one week?

\$12 ($\$8 + \4).

3. How much is saved after two weeks?

\$16 ($\$8 + \$4 + \4).

4. After how many weeks will Alex reach \$24?

4 weeks: \$12, \$16, \$20, then \$24.

Prepare for a Library Card Visit

Developing: combine two requirements

Read the rules for fictional Pine Library. Real library requirements vary. Use only these pretend documents for this practice.

Bring both Photo ID and a document showing your current address.

Document A Photo ID showing Ari and an old address.

Document B Recent utility bill showing Ari and the current address.

Document C Store receipt with no name or address.

Read the information. Write, say, point to, or dictate your answers. A calculator may be used.

1. Which document provides photo ID?

2. Which document provides the current address?

3. Which two documents should Ari bring together?

4. Why does Document C not prove the address?

Prepare for a Library Card Visit

Developing: combine two requirements

Read the rules for fictional Pine Library. Real library requirements vary. Use only these pretend documents for this practice.

Bring both	Photo ID and a document showing your current address.
Document A	Photo ID showing Ari and an old address.
Document B	Recent utility bill showing Ari and the current address.
Document C	Store receipt with no name or address.

Sample answers below. Accept equivalent wording and supported communication.

1. Which document provides photo ID?

Document A.

2. Which document provides the current address?

Document B.

3. Which two documents should Ari bring together?

A and B.

4. Why does Document C not prove the address?

It has no name or address.

Follow a Service Desk Queue Ticket

Foundational: locate explicit details

Pat takes ticket B14 at a community service desk. Follow the fictional display and instructions below.

Your ticket B14

Display now B12 - Counter 2

When called Match your full ticket code, then go to its counter.

If you miss a call Ask the welcome desk for help; keep your ticket.

Read the information. Write, say, point to, or dictate your answers. A calculator may be used.

1. What is Pat's full ticket code?

2. Should Pat go to Counter 2 when B12 is shown?

3. The display changes to B14 - Counter 1. Where does Pat go?

4. Pat is unsure whether B14 was called. What can Pat do?

Follow a Service Desk Queue Ticket

Foundational: locate explicit details

Pat takes ticket B14 at a community service desk. Follow the fictional display and instructions below.

Your ticket	B14
Display now	B12 - Counter 2
When called	Match your full ticket code, then go to its counter.
If you miss a call	Ask the welcome desk for help; keep your ticket.

Sample answers below. Accept equivalent wording and supported communication.

1. What is Pat's full ticket code?

B14.

2. Should Pat go to Counter 2 when B12 is shown?

No; B12 does not match B14.

3. The display changes to B14 - Counter 1. Where does Pat go?

Counter 1.

4. Pat is unsure whether B14 was called. What can Pat do?

Ask the welcome desk for help and keep the ticket.

Find an Accessible Entrance - Level 2

Level 2: compare routes and request help

Jules uses a wheelchair and needs a step-free entrance to a center. Read this fictional entrance notice. Stay on marked open paths.

Front entrance	Closed for repairs. Do not enter.
East entrance	Open; six steps; no ramp.
West entrance	Open; step-free path from the marked sidewalk.
If the path is blocked	Ask reception staff for a safe accessible route.

Read the information. Write, say, point to, or dictate your answers. A calculator may be used.

1. Which entrance meets Jules's step-free requirement?

2. Why is the east entrance unsuitable for this plan?

3. Can Jules use the closed front entrance as a shortcut?

4. The west path is blocked. What should Jules do?

Find an Accessible Entrance - Level 2

Level 2: compare routes and request help

Jules uses a wheelchair and needs a step-free entrance to a center. Read this fictional entrance notice. Stay on marked open paths.

Front entrance	Closed for repairs. Do not enter.
East entrance	Open; six steps; no ramp.
West entrance	Open; step-free path from the marked sidewalk.
If the path is blocked	Ask reception staff for a safe accessible route.

Sample answers below. Accept equivalent wording and supported communication.

1. Which entrance meets Jules's step-free requirement?

West entrance.

2. Why is the east entrance unsuitable for this plan?

It has six steps and no ramp.

3. Can Jules use the closed front entrance as a shortcut?

No; it is closed for repairs.

4. The west path is blocked. What should Jules do?

Ask reception staff for a safe accessible route.

Decline an Invitation - Level 2

Level 2: compose a reply and maintain a boundary

Taylor invites Morgan to a loud concert. Morgan does not want to go. Morgan would enjoy a quiet cafe another day. A person may decline without giving a reason.

Invitation	Would you like to go to the concert Friday?
Morgan's choice	No concert. A cafe visit is optional.
If asked again	Morgan can repeat the choice clearly.
Respectful response	Accept the answer without pressure.

Read the information. Write, say, point to, or dictate your answers. A calculator may be used.

1. Write or say a clear way Morgan can decline.

2. Write an optional alternative Morgan could suggest.

3. Taylor asks again. What can Morgan say?

4. What is a respectful reply from Taylor?

Decline an Invitation - Level 2

Level 2: compose a reply and maintain a boundary

Taylor invites Morgan to a loud concert. Morgan does not want to go. Morgan would enjoy a quiet cafe another day. A person may decline without giving a reason.

Invitation	Would you like to go to the concert Friday?
Morgan's choice	No concert. A cafe visit is optional.
If asked again	Morgan can repeat the choice clearly.
Respectful response	Accept the answer without pressure.

Sample answers below. Accept equivalent wording and supported communication.

1. Write or say a clear way Morgan can decline.

Example: No thank you. I do not want to go.

2. Write an optional alternative Morgan could suggest.

Example: Would you like to visit a quiet cafe another day?

3. Taylor asks again. What can Morgan say?

Example: My answer is still no.

4. What is a respectful reply from Taylor?

Example: Okay, thanks for telling me.

Check a Grocery Substitution - Level 2

Level 2: check three conditions

Drew ordered plain oatmeal, 12 packets, for at most \$4. The ordered box is unavailable. Staff offer these replacements. All prices are final.

Option A	Plain oatmeal 12 packets \$3.80
Option B	Apple oatmeal 12 packets \$3.50
Option C	Plain oatmeal 6 packets \$2.20
Choice rule	Accept a match or ask for no replacement.

Read the information. Write, say, point to, or dictate your answers. A calculator may be used.

1. Which option meets all three requirements?

2. Which requirement does B fail?

3. Which requirement does C fail?

4. Write a response accepting the matching replacement.

Check a Grocery Substitution - Level 2

Level 2: check three conditions

Drew ordered plain oatmeal, 12 packets, for at most \$4. The ordered box is unavailable. Staff offer these replacements. All prices are final.

Option A	Plain oatmeal 12 packets \$3.80
Option B	Apple oatmeal 12 packets \$3.50
Option C	Plain oatmeal 6 packets \$2.20
Choice rule	Accept a match or ask for no replacement.

Sample answers below. Accept equivalent wording and supported communication.

1. Which option meets all three requirements?

Option A.

2. Which requirement does B fail?

Flavor: it is apple, not plain.

3. Which requirement does C fail?

Quantity: 6 packets, not 12.

4. Write a response accepting the matching replacement.

Example: Please replace it with Option A, the 12-packet plain oatmeal for \$3.80.
